

Clear coats and spot blender

1K Blender clear

Blender clear is a special product for homogenous paint transitions in the blending area of 1K / 2K clear coats as well as of 2K topcoats with very good blending results. The blender clear is used immediately after the clear- / topcoat is applied.

Advantages

- Seamless edge transitions in the blending area
- Very good solving ability
- No colour deviations
- Dries to a glossy finish
- Does not need to be polished and therefore very good finish results
- Ideal for repair paint jobs and spot repairs
