

## Surface Preparation

# 1K Plastic Adhesion Promoter

Ideal adhesion promoter for subsequent coatings on most plastics.

### Advantages

- › One light coat is all you need
- › Excellent adhesion properties
- › Dries quickly
- › Can be topcoated after just 10 minutes
- › Maximum flexibility and yield
- › Colourless, with silver pigments

### Article Number

368 0009 (297 g / 10.5 oz.)

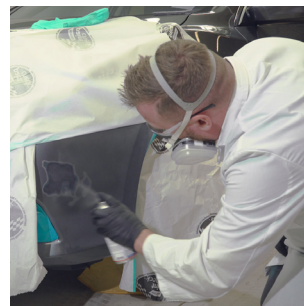

### Application Notes

**Repair Area**  
needs to be sanded

**Clean**  
surface

**Apply**  
one light coat

**Flash off**  
for 10 mins. before  
continuing
