

NEW CAN DESIGN

SPRAYMAX INFORMATION: NEW CAN DESIGN 2026

✓ MODERNIZED LABEL DESIGN

New Look, Same Product you have known to trust.
We have refreshed the appearance of our spray cans with a modern, more contemporary label design.

Please note: Only the label design has changed —
the content, quality, and formula remain unchanged.

✓ CAP UPDATE FOR “1K” PRODUCTS

For our “1K” product line, we’re replacing the standard cap with a smaller, newly developed “Minicap.” This allows us to reduce plastic usage by about 50% (compared to a conventional cap).

✓ PERFORATED “DONUT”

There is a new design for the “donut,” which forms the base for the Minicap. The donut now includes a perforation that makes it easier to remove from the steel can, improving recyclability.

✓ QR CODE ON THE CAN

A QR code on the back of the can leads directly to the product information on the website.

TRANSITION PERIOD: OLD AND NEW DESIGNS IN CIRCULATION

Due to the long shelf life of our spray cans, we are expecting that both the old and new designs (labels, donuts and caps) will appear in the market during the transition phase.

Both versions are fully authentic and meet all quality standards.

WHAT DOES THIS MEAN FOR YOU?

No Action Needed:

This transition is seamless for distributors and customers.

Original Products:

Whether you receive cans with the classic or new look, both are genuine products from our company.

Consistent Quality:

The product inside remains the same, regardless of the label or cap design.
