SPRAYMAX 2K QUICK EPOXY PRIMER

FAST PRIMING. RELIABLE PROTECTION.

The professional 2K epoxy primer for smaller repair areas and demanding substrates. It offers accelerated drying, excellent adhesion and reliable corrosion protection. The compact 250 ml aerosol provides just the right amount for smaller paint repair jobs – efficient, economical and without unnecessary material waste.

ADVANTAGES

- Faster repair processes thanks to accelerated drying
- Excellent adhesion to metal, non-ferrous metals, galvanised steel and anodised aluminium
- Reliable corrosion protection and excellent insulating properties
- Can be topcoated with all conventional paint systems
- Can be overcoated with 2K polyester materials
- Compact 250 ml aerosol – ideal for smaller repair areas

SMALL CAN. POWERFUL 2K PERFORMANCE.
