

## Texture Coating Black

# 1K Texture Coating Black

Ideal textured finish for use over bumpers, mirrors and bodyside mouldings. Compatible on plastics and over primers. Texture can be adjusted through spraying distance from surface and speed of application.

### Advantages

- › Fast dry; ready to spray
- › Easy to use, high quality 1K coating
- › Paintable with all base coats or single stage top coats
- › Refresh the look of original textured surfaces
- › The structure depends on spraying distance and speed

### Article Number

368 0224 (384 g / 13.5 oz.)

### Application Notes

- › Sand with 400 grit
- › Shake can fully for 2 minutes before applying
- › Flash time 5-10 minutes @ 20°C / 68°F
